Lion Exhibit Fence Removal and Installation at Niabi Zoo

March 7, 2014

SCOPE OF WORK: Please note the changes and additions in **bold**.

LION EXHIBIT FENCE REMOVAL AND INSTALLATION AT NIABI ZOO:

- 372' removal of entire perimeter fence
- 372' installation of new 16' high, 9 gauge galvanized chain link fence with an additional 2' of fence fabric buried below grade, overall length of the fabric shall be 18'0". **Note, this should be a one piece seamless fence of at least 18'.**
- Installation of a **four (4) tiered** 14 gauge, aluminum hot wire system, **three (3)** wires on the side of the fence and one (1) one on the top of the fence. **Note, this should be a Gallagher brand M1800I or approved equivalent. See diagram attached.**
- Other considerations and specifications of the fence installation shall include **4"** SS40 line posts, 4" SS40 terminal & gate posts, one (1) single swing gate, one (1) 12' double swing gate, 1 5/8" galvanized post & bracket for hot wire system installation, insulators, 14 gauge aluminum hot wire

ADD ALTERNATE - LION EXHIBIT FENCE REMOVAL AND INSTALLATION AT NIABI ZOO:

- 372' removal of entire perimeter fence
- 372' installation of new 12' high, 9 gauge galvanized chain link fence with a 3' kick-out, an additional 2' of fence fabric buried below grade, overall length of the fabric shall be 14'0". **Note, this should be a one piece seamless fence of at least 14'.**
- Installation of a **four (4) tiered** 14 gauge, aluminum hot wire system shall be installed with **three (3)** wires on the underside of the 3' kick-out and one (1) at the end of the kick-out. **Note, this should be a Gallagher brand M1800I or approved equivalent.**
- Other considerations and specifications of the fence installation shall include **4"** SS40 line posts, 4" SS40 terminal & gate posts, one (1) single swing gate, one (1) 12' double swing gate, 1 5/8" galvanized post & bracket for hot wire system installation, insulators, 14 gauge aluminum hot wire
