#### **8. Comments from Commissioners: (Three)**

Commissioner Mielke was recognized.

Mr. Mielke stated, "This will apply to both meetings. As we open up more, are we going to have the public more or included in our meetings...or do we know yet?"

President Swanson stated, "I would defer to Chairman Brunk uh, to answer that question."

Commissioner Brunk stated, "I apologize for not saying that after the meeting."

President Swanson added, "No, it's okay...but the Commission generally follows his lead."

Commissioner Brunk stated, "Um, we are monitoring what the State is doing on a daily basis. Um, I would be surprised if we don't open back up for next month's committee cycle. Um...but Jim and I have been discussing it and we don't want to...we don't want to jump the gun just in case because Mr. Davis and his staff have put in a lot of time and effort into setting up the chambers to be able to accommodate for social distancing. So, once we do revert back to what we would consider normal...uh, it's a significant undertaking for him and his staff. So, we want to be sure we are ready to make that move, but I would be surprised if we do not open back up by next month's committee cycle."

President Swanson stated, "Thank you, Mr. Mielke. Thank you for your question. And, I think on that note on behalf of all Commissioners I would like to express our thanks to Mr. Davis and all his colleagues for everything you've done for us, we really appreciate it. Mr. Langdon had a comment. Let's make sure his microphone is active."

Commissioner Langdon was recognized.

Mr. Langdon stated, "Yes, I have a comment. When is Loud Thunder going to be fully open to the public? I went up there a couple of weeks ago and some of the restrooms were still locked down and the boat rentals on Lake George was not open yet."

President Swanson answered, "One of the things with the boat rentals is that we require some seasonal staff. And many of those, as you know, are college and university students locally. As soon as Mr. Mills has the staff, I believe he gets that open. In fact, I did see that it is now open, is it Mr. Craver?"

Ms. Kinney asked, "Who's mic does he have?"

President Swanson answered, "Mr. Maranda."

Ms. Kinney stated, "You're on, Jeff."

Mr. Craver stated, "Uh, when the staff took over the boat rental operation out at Loud Thunder, it was a seasonal operation. We operate Wednesday through Sunday. We are closed on Monday's and Tuesday's; however, we are open on the holidays if, uh July 4<sup>th</sup> falls on a Monday. So, the boat rental should open up, I believe it is May 27<sup>th</sup> and will run through Labor Day. Um, we've attempted to extend the season and open the season at times uh, weekends only when staff and conditions present themselves. Uh, but due to the unseasonably uh...weather patterns we've encountered, um...it...it's difficult. Uh, staff is an issue...uh staffing the boat rental. However, again, I mean...look at this past weekend and some of our other weekends. We try to run the boat rental and try to turn a dollar for the district. We would like to explore that being more of a service and am more than happy to have that discussion at the Executive Committee."

President Swanson stated, "And, I apologize, Mr. Langdon. My confusion was the kayak docks are available, the rentals. Pretty excellent amenities if you want to go check them out. Camping is now available...uh, you can make those reservations through the Forest Preserve District website. You can do that also by contacting them directly. The trails have been recently closed, partially closed due to the heavy precipitation we've had. But for the most part, things are looking really good. You'll see in Mr. Mill's report...it looks like he's had a pretty good report on the wells down at the Riverside Camp site at Loud Thunder. So, that's a plus for us moving forward too. But, thank you for that question."

Mr. Langdon answered, "You're welcome."

President Swanson asked, "Are there any other comments from Commissioners?"

9. Commissioner Adams moved to approve all Routine Reports from the Director and Departments Heads of the Forest Preserve Commission, as presented. Commissioners Enburg and Woods seconded.

President Swanson stated, "I'm terribly sorry, Mr. Deppe. I couldn't see you through the monitor."

Ms. Kinney stated, "Mr., Deppe has a question?"

President Swanson answered, "Yes."

Commissioner Deppe was recognized.

Mr. Deppe stated, "I have a couple of them."

President Swanson stated, "Yes, please."

Mr. Deppe stated, "One of them is a statement. Kudos for bringing the County Sheriff's Department out there to curb the vandalism that had been happening. Um, has the aluminum bridge with the wood flooring...the \$14,000 bridge been put in by Ben and his staff yet?"

President Swanson answered, "I don't think the bridge has been installed yet. But, we have similar structures also...so, we have a pretty good body of expertise in doing that. I don't think it's gone in yet. Do you know when it's going to go in, Mr. Craver."

Mr. Craver answered, "Upon approval of the Routine Reports, uh, since it was noted in this packet, when you guys approve the Routine Reports tonight, we'll move forward with the purchase. And once received, we'll get it assembled and installed uh, out on the trail."

Mr. Deppe stated, "I love the fact that our staff is doing it. We are doing more now. The other question I have is, there are some grants that we are looking for in East Moline. What is that?"

President Swanson answered, "So, as you may know from the packets, there are two considerable properties out near Illiniwek, not adjacent to Illiniwek...but a little bit further up river from Illiniwek that Mr. Petersen has been in contact with those folks and there may be an opportunity to acquire those lands. And what happens, often, when we go in and pay list price for lands that we put into conservation...rather, we take advantage of grants from foundations both national and some international that help to put lands into trusts, right. But, out of those purchases require a match from us to get the process started in earnest money, if you will. And so, what Mr. Petersen and Mr. Craver have been doing is exploring options...and I know they've been working very hard to see if we might

be able to find a source...a private philanthropic source, ideally, to get that earnest money to get that process going. Does that address your question?"

Mr. Deppe states, "Yes, thank you."

President Swanson added, "Thank you. And if we could...that would be a rather significant addition. It's land that people thought they were going to develop but for whatever reason, they realized that wasn't the highest best use of the land. But, if you recall, some of the wins we've had in terms of conservation, especially around Illiniwek, I think we have around five endangered or threatened species that we are now finding around there. I think that bodes well if we can add to that. Is there anything, Mr. Craver, that you care to add on this note? No? Okay, thank you. I also want to echo what Mr. Deppe said about the Sheriff's Department. It's a great partnership that we have. We want families to feel safe and secure when they are using our parks. And, I know from personal experience that the Sheriff's Department does an outstanding job. So, thank your colleagues for us, Sheriff Bustos. Um, are there any other questions or points, Mr. Craver?"

Mr. Craver added, "Uh, in addition to the Sheriff's Department...those of you who do come out to Loud Thunder that plan or intend to fish, please buy your fishing license. I've gotten some increased presence from the State Conservation Officers. So, in addition to Sheriff Bustos and the rest of the Sheriff's Office, uh, the Conservation Officers have been making themselves known at the park; which is a great deterrent."

President Swanson added, "And, we appreciate that partnership as well. Thank you very much for lifting that up. I will say on behalf of Mr. Petersen...it's in his report, the Garlic Mustard Pull that was supposed to happen on Saturday, well you know good soil moisture helps to get that Mustard up but too much...well, it was too much. So, he's going to reschedule for this Saturday if you are looking for something to do and get some fresh air, come on out to Illiniwek and pull some Garlic Mustard with us. Uh, we do have a motion on the floor to by voice vote replicate the previous roll in approving the routine reports."

Commissioner Normoyle moved to approve the previous roll call vote. Commissioner Brunk seconded.

D. Adams, D. Beck, L. Boswell-Loftin, R. Brunk, L. Burns, D. Clevenger, D. Cremeens, J. Deppe, C. Enburg, D. Johnston, E. Langdon, D. Mielke, L. Moreno, M. Moreno, R. Morthland, A. Normoyle, R. Simmer, E. Sowards, B. Vyncke, J.R. Westpfahl, J. Woods

**TOTAL YES**                    **21**

**TOTAL NO**                    **0**

Motion carried.

10. President Swanson stated, "One final item of business...I would like to announce and thank our fellow Commissioner, Johnnie Woods, who has accepted the invitation to serve on the Executive Committee for the Forest Preserve District. Uh, I know her service will be invaluable and I thank her in advance. She will be joining us at its June meetings and I want to thank her publicly for accepting that invitation to lead. Alright. Seeing no other business, the next meeting of the Forest Preserve Commission will be June 15<sup>th</sup> at the Rock Island County Office building and via teleconference, possibly, following the meeting of the Rock Island County Board."

The next meeting of the Forest Preserve Commission is Tuesday, June 15, 2021, at 5:30pm, immediately following the meeting of the Rock Island County Board.

President Swanson declared the Forest Preserve Meeting adjourned.

RESPECTFULLY SUBMITTED,

KAREN KINNEY  
COUNTY CLERK AND SECRETARY  
OF THE FOREST PRESERVE COMMISSION
