ROCK ISLAND COUNTY FOREST PRESERVE COMMISSION
JANUARY 21, 2025 – 6:18PM
PRESIDENT KAI SWANSON - PRESIDING

1. Karen Kinney, County Clerk, called the roll: (Record)

D. Adams, R. Brunk, L. Burns, E. Dewith, C. Enburg, T. Foster, C. Layer, P. McNeil,
D. Mielke, L. Moreno, B. Perkins, R. Simmer, E. Sowards, K. Swanson, B. Vyncke,
J. R. Westpfahl

TOTAL PRESENT 16

M. Moreno-Baker, R. Morthland, J. Woods

TOTAL ABSENT 3

President Swanson stated, "We do not have a presentation tonight we wanted everybody to get home and warm as early as they possibly could. However, I'm just curious we have some visitors with us this evening. It's great to see you and I'm just curious if you care to share why you are here. Is there something we, as a Commission, can do to help with your encounter with us this evening? We are putting you on the spot. Are you here as students?"

Mr. Layer stated, "Say what you gotta say."

Craver stated " They are students from Augustana for Political Science class"

(Girls Chuckled)

President Swanson stated, " Ok, I just wanna make sure if you guys have any questions, please don't hesitate to ask any member. We're now in the, having completed the County Board meeting. The County Board also sits as the Forest Preserve Commission. So, same cast of characters, but just a different, body. And if you do have questions, I know some folks to turn you over to. We are very happy to have you with us. So, if you have any questions, just please let us know."

2. Commissioner Adams moved to approve the December 17, 2024, Commission minutes, as presented. Commissioner Sowards seconded."

A voice vote was taken.

Motion carried.

3. **PUBLIC COMMENTS - (NONE)** (Three calls were made.)

4. **PRESIDENTS COMMENTS:**

President Swanson stated, "We have lots to celebrate in the District. The District was awarded a Bike Path Grant for \$199,999.00. I'll chip in the extra buck, Jeff. This is important because it's hard to gain grants for maintaining and upgrading. It's easier to gain grants than to build new ones. So, this is great work on behalf of the District staff. A grant was also awarded in the District for Electric Vehicle charging stations for up to \$410,000.00 and an assessment report is included in the report section. Also, I have a question for all the Members of this Commission. As you probably don't know, I get to represent you all on the County's Health Care Planning Committee. That's the Committee that works with and sets the Budget for the Health Insurance for all of our employees. Well, they have a wellness team. The wellness team has an idea to do something like a poker walk or something like that to get people out doing something when the weather gets a little bit nicer in the spring. And, they've invited the Elected, Board/Commission Members to volunteer at this event. So, is this something...I'm gonna look around for a whole...show of hands. If anybody would have been...we'll start over here. If you'd be interested in volunteering, we'll get the details out later, but is anybody interested over here?"

Mr. Simmer State, " I think my leg is going to be broke that day.,"

President Swanson stated, "You get to stand still."

(Overlapping Commission Members Inaudible)

President Swanson asked, "Is it possible, Enyo? Carla? Alright, Larry? Okay...looking over here? Okay, L. Moreno, Brunk, Dave, Drue. So, just as long as you are open to the idea. What's that?

Board Member Dewith asked, "Do you have the date?"

President Swanson answered, "No, we just wanted to see if it was worth pursuing. It wouldn't be everybody, but if we had about three or four volunteers...you might be out at Niabi...you might be at Illiniwek...but as long as you are all generally interested, I am sure we can get four volunteers. Alright, thank you for the point of personal privilege. We will roll on with our report and questions will come later in the agenda."

5. Commissioner Simmer moved to approve the Forest Preserve Claims and Treasurer's Disbursements in the amount of \$243,421.38, as presented. Commissioner Burns seconded.

A roll call vote was taken.

Mr. Westpfahl stated, "One page."

President Swanson stated, "Did we get a...I know Mr. Westpfahl doesn't use the electronic packets. Mr. Craver, can we get a printed packet for Mr. Westpfahl?"

Mr. Westpfahl stated, "Just tell me what they are."

President Swanson answered, "Well, it would be about...you got it. The fees."

Mr. Westpfahl stated, "I got it right here."

President Swanson stated, "Okay, I was gonna say, it might be a little bit more of my voice than you want to hear."

President Swanson stated, "I do need a motion and a second. Mr. Vyncke moves and Mr. Foster and Ms. Sowards seconds. Do we have any questions or discussion?"

President Swanson added," Just to summarize, most of them are going up a little bit...we try to keep with the Jones. We are rolling this back to what it was before the reduction."

Mr. Simmer stated, "It's Perfect for ice fishing."

President Swanson stated, "Yes, perfect for ice fishing...seeing none."

President Swanson stated, "I did wanna point out, that I wanna give thanks to Mr. Camlin. Due to his work, he has found a very favorable, investment instrument, for the, for the tax anticipation. It's got a different name now the TAN not the TAW. The tax and anticipation note, and he had a competitive bidding process, and it looks like our best bet is about 4% interest rate. And again, to remind you, our goal is not to use all of it. To use as little as we need to, but it's good to have that. I also wanna thank Mr. Camlin for that work. Also, Ms. Palmer, you spent the evening here. Is there anything you'd like to lift up for us?"

April Palmer stated "no, thank you."

President Swanson stated, "But we're grateful to have you with us. Any other questions about the packet in there? I would say, Mr. Craver, there's an item evaluating the accusation of vehicles. I haven't been accused of the cars since I had no Pinto, sins, but I think you meant the acquisition of vehicles."

President Swanson stated, "Friends, the next meeting of the Forest Preserve Commission will be Tuesday February 18, 2025, at 5:30pm, following the meeting of the Rock Island County Board in the Rock Island County Office Building, 1504 Third Avenue, Rock Island, Illinois in these Board Chambers!"

Subject: Section 4(f) Coordination
I-80 Mississippi River Bridge Project

January 13, 2025

Mr. Jeff Craver
District Director
Forest Preserve District, Rock Island County
19406 Loud Thunder Road
Illinois City, Illinois, 61259

The Illinois Department of Transportation (IDOT) appreciates the Rock Island County Forest Preserve District's participation in the I-80 Mississippi River Bridge Project. As discussed at previous meetings, the selected alignment will result in minor impacts to the Amowa Forest Preserve. Impacts to public recreational lands require coordination and concurrence from the Official with Jurisdiction in accordance with Section 4(f) of the U.S. Department of Transportation Act of 1966. This process and the concurrence we are seeking are further described in this letter.

If you agree with the Section 4(f) de minimis determination, please indicate your concurrence on page two of the enclosure and return to our office by February 21, 2025. If you require additional information or have comments, please contact Michael Kuehn at Michael.Kuehn@illinois.gov or 815-284-5351.

Sincerely,

A handwritten signature in cursive script that reads "Trisha Thompson".

Section 4(f) Coordination – Amowa Forest Preserve
FAI 80 (I 80) over Mississippi River
I-80 Mississippi River Bridge Project
Phase I, Job No. P-92-013-15
PTB No. 197/019

Project Background

IDOT has been studying potential improvements to the I-80 Bridge over the Mississippi River. The I-80 Bridge is a critical transportation link providing access across the Mississippi River for Rock Island and Scott counties, and the surrounding region.

The Phase I study has advanced to the point where the Preferred Alternative has been selected. The Preferred Alternative would involve the replacement of the I-80 bridge across the Mississippi River, reconstruction of the US 67 and IL 84 interchanges on both ends of the bridge, reconstruction of the I-88/I-80 interchange, and associated improvements along the I-80 mainline. Several alternatives were evaluated to provide the least amount of impacts, as well as provide a structurally sound and safe crossing over the Mississippi River.

Forest Preserve Impacts

The potential impacts to Amowa Forest Preserve are related to I-88 interchange modifications required to address existing geometric deficiencies that contribute to safety issues. The proposed improvements would impact approximately 3.5 acres in a linear strip of undeveloped land along the existing I-88 interchange right-of-way. The entrance to the preserve would not be directly impacted but access to the preserve south of the entrance via Hubbard Road may be temporarily impacted during construction due to the relocation of Hubbard Road. Although there was no feasible and prudent way to entirely avoid impacts to the Amowa Forest Preserve, efforts were made to minimize the impacts to this property. These Section 4(f) impacts and mitigation measures will be documented in the Phase I Engineering Report as part of the Categorical Exclusion.

Amowa Forest Preserve is considered a Section 4(f) resource by the Federal Highway Administration (FHWA). Section 4(f) refers to the original section within the U.S. Department of Transportation Act of 1966 which provided for consideration of park and recreation lands, wildlife and waterfowl refuges, and historic sites during transportation project development. The law, now codified in 49 U.S.C §303 and 23 U.S.C. §138, applies only to the U.S. Department of Transportation (U.S. DOT) and is implemented by the Federal Highway Administration (FHWA) and the Federal Transit Administration through the regulation 23 Code of Federal Regulations (CFR) 774.

Before approving a project that uses Section 4(f) property, FHWA must determine that there is no feasible and prudent alternative that avoids the Section 4(f) properties and that the project includes all possible planning to minimize harm to the Section 4(f) properties, or FHWA makes a finding that the project has a de minimis impact on the Section 4(f) property.

A de minimis impact involves the use of Section 4(f) property that is generally minor in nature. A de minimis impact is one that, after taking into account avoidance, minimization, mitigation and

enhancement measures, results in no adverse effect to the activities, features, or attributes qualifying a park, recreation area, or refuge for protection under Section 4(f). A de minimis impact determination requires agency coordination with the officials having jurisdiction over the Section 4(f) property and opportunities for public involvement. Because the impacts to Amowa Forest Preserve are considered minor to the overall functionality of the Preserve due to the small percentage of impacted area, IDOT has prepared the attached Section 4(f) documentation (see attached). A public hearing was held on October 29, 2024 (online) and on October 30, 2024 (in person), and the public had the opportunity to provide comments on the project and the impacts to Duck Ranch. No comments were received regarding Amowa Forest Preserve.

Conclusion

IDOT recommends that the proposed impacts to Amowa Forest Preserve are consistent with a de minimis impact for the use of a Section 4(f) property and will not adversely affect the features, attributes, or activities qualifying the property for protection under Section 4(f) of the U.S. Department of Transportation Act of 1966.

The purpose of this memo is to document coordination with the Rock Island County Forest Preserve District officials, having jurisdiction over the Section 4(f) property, and gain their concurrence that the proposed minor impacts to the Amowa Forest Preserve will not adversely affect the activities, features, and attributes which qualify the resource for protection under Section 4(f).

CONCURRENCE:

We agree that the impacts to Amowa Forest Preserve will not adversely affect the activities, features, and attributes which qualify the resource for protection under Section 4(f).

Mr. Jeff Craver
District Director
Forest Preserve District, Rock Island County
19406 Loud Thunder Road
Illinois City, Illinois 61259

The Illinois Department of Transportation (IDOT) appreciates the Rock Island County Forest Preserve District's participation in the I-80 Mississippi River Bridge Project. As discussed at previous meetings, the selected alignment will result in temporary impacts to the Great River Trail. Impacts to public recreational lands require coordination and concurrence from the Official with Jurisdiction in accordance with Section 4(f) of the U.S. Department of Transportation Act of 1966. This process and the concurrence we are seeking are further described in this letter.

If you agree with the Section 4(f) de minimis determination, please indicate your concurrence on page two of the enclosure and return to our office by February 21, 2025. If you require additional information or have comments, please contact Michael Kuehn, Studies and Plans Engineer, at Michael.Kuehn@illinois.gov or 815-284-5351.

Sincerely,

Section 4(f) Coordination – The Great River Trail
FAI 80 (I 80) over the Mississippi River
I-80 Mississippi River Bridge Project
Phase I, Job No. P-92-013-15
PTB No. 197/019

Project Background

IDOT has been studying potential improvements to the I-80 Bridge over the Mississippi River. The I-80 Bridge is a critical transportation link providing access across the Mississippi River for Rock Island and Scott counties, and the surrounding region.

The Phase I study has advanced to the point where the Preferred Alternative has been selected. The Preferred Alternative would involve the replacement of the I-80 bridge across the Mississippi River, reconstruction of the US 67 and IL 84 interchanges on both ends of the bridge, reconstruction of the I-88/I-80 interchange, and associated improvements along the I-80 mainline. Several alternatives were evaluated to provide the least amount of impacts, as well as provide a structurally sound and safe crossing over the Mississippi River.

Parkland Impacts

The potential impacts to the Great River Trail are related to the construction of the new I-80 Mississippi River Bridge. During construction, temporary closure to parts of the Great River Trail are expected. Since I-80 crosses the Great River Trail, there are no feasible and prudent alternatives that would avoid impacts. There will be no permanent or long-term impacts to the trail. During final design, measures to minimize impacts to the trail during construction will be investigated. These Section 4(f) impacts and mitigation measures will be documented in the Phase I Engineering Report as part of the Categorical Exclusion.

The Great River Trail is considered a Section 4(f) resource by the Federal Highway Administration (FHWA). Section 4(f) refers to the original section within the U.S. Department of Transportation Act of 1966 which provided for consideration of park and recreation lands, wildlife and waterfowl refuges, and historic sites during transportation project development. The law, now codified in 49 U.S.C §303 and 23 U.S.C. §138, applies only to the U.S. Department of Transportation (U.S. DOT) and is implemented by the Federal Highway Administration (FHWA) and the Federal Transit Administration through the regulation 23 Code of Federal Regulations (CFR) 774.

Before approving a project that uses Section 4(f) property, FHWA must determine that there is no feasible and prudent alternative that avoids the Section 4(f) properties and that the project includes all possible planning to minimize harm to the Section 4(f) properties, or FHWA makes a finding that the project has a de minimis impact on the Section 4(f) property.

A de minimis impact involves the use of Section 4(f) property that is generally minor in nature. A de minimis impact is one that, after taking into account avoidance, minimization, mitigation and enhancement measures, results in no adverse effect to the activities, features, or attributes qualifying a park, recreation area, or refuge for protection under Section 4(f). A de minimis impact determination requires agency coordination with the officials having jurisdiction over the Section 4(f)

property and opportunities for public involvement. Because the impacts to the Great River Trail will be temporary and the affected area will be restored, IDOT has prepared the attached Section 4(f) documentation (see attached). A public hearing was held on October 29, 2024 (online) and on October 30, 2024 (in person) and the public had the opportunity to provide comments on the project and the impacts to the Great River Trail. Three comments were received related to the Great River Trail; however none indicated a concern regarding the temporary impacts the project will have on the resource.

Conclusion

IDOT recommends that the proposed impacts to the Great River Trail are consistent with a de minimis impact for the use of a Section 4(f) property, and will not adversely affect the features, attributes, or activities qualifying the property for protection under Section 4(f) of the U.S. Department of Transportation Act of 1966.

The purpose of this memo is to document coordination with the Rock Island County Forest Preserve District officials, having jurisdiction over the Section 4(f) property, and gain their concurrence that the proposed minor impacts to the Great River Trail will not adversely affect the activities, features, and attributes which qualify the resource for protection under Section 4(f).

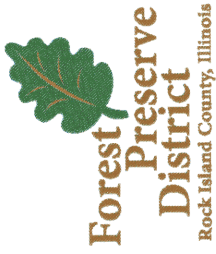

CONCURRENCE:

We agree that the impacts to the Great River Trail will not adversely affect the activities, features, and attributes which qualify the resource for protection under Section 4(f).

Rock Island County Treasurer

February 5, 2025

TO THE COMMISSIONERS OF THE FOREST PRESERVE DISTRICT:

Accompanying this letter is the Treasurer's monthly report of Financial Status as of January 31, 2025 and interest received on **Forest Preserve Funds** invested for the month of January 2025, as the seventh month of the fiscal year, compared with the prior year follows:

FY 2025 interest received in January 2025	\$ 29,393.00
FY 2025 accrual as of January 31, 2025	\$ 148,017.00
<i>FY 2024</i> interest received in January 2024	\$ 26,333.00
<i>FY 2024</i> accrual as of January 31, 2024	\$ 117,071.00

As of December 18, 2024, the Blackhawk Bank interest remains 3.825%. As of February 4, 2025, Forest Preserve funds accounted for 5.7% of the pooled investments (sum of all FP funds invested divided by Blackhawk Bank pooled investment account total).

TAX ANTICIPATION NOTE (Authorized November 19, 2024)

Up to \$1 million, to be drawn upon to provide cash flow for facilities upgrades and other operating expenses at Niabi Zoo, and repaid by December 2025.

- CBI Bank & Trust, Moline, IL, was selected as the servicer for this TAN.
 - 4.000% interest rate; interest payable monthly; principal due at end of term.

Please contact me if you have any questions.

Sincerely,

Nick Camlin

The month of January was the very typical slow month around the golf course. The course remains closed for the season, and customer flow for season passes and merchandise is nearly non-existent. Overall there is not much to say. I took some vacation the first half of the month, and have worked on some off season stuff around the clubhouse during the remainder of the month. Once we flipped to February, we have had a few people come in and buy season passes.

Among the various things worked on during the month of January:

- Welcome letters for returning outings, pass holders, leagues prepping to be sent out
- Updating Website for 2025 season
- Updating POS System for 2025 season
- Confirming dates of this year's scheduled outings
- Painting various areas in clubhouse that needed a touch up
- General cleaning, more thorough than in season

I have been reaching out to the golf outings scheduled for the upcoming season, to let them know status of things at the golf course, and what we anticipate for the 2025 season. As we head into February I am beginning to reach out to the golf leagues to see what their plans are for the 2025 season, continuing to confirm golf outings for the upcoming season. I will also continue preparations for the 2025 season.

Report to Forest Preserve Committee

Name of Park Illiniwek

For the Month of January 2025

Grounds Maintenance performed— Staff installed gates at the sledding hill to prepare for snow and sledding season. Staff started cutting trees out of the prairie at Amowa east. Tree removed were non native white mulberry, Siberian elm, and tree of heaven. Trees were piled into brush piles that will be burned sometime in February. Staff started removing and trimming trees in the campground at Illiniwek. Two large Siberian elms were removed off electric site 3 and 5. Staff also finished cleaning up flood debris around the boat ramp parking area. Mostly logs that floated in during high water. Trees around the boat ramp parking lot that were leaning towards the parking lot were removed. 9 dead ash trees were removed in this area as well. 12 white mulberry were removed in the woodland west of the pavilion and 2 dead elm trees were removed along the river along with 1 dead cottonwood. Staff borrowed the stump grinder from Loud Thunder and have been grinding stumps in the 9th street project and in the campground. Staff hauled 500 gallons of water over to the campground to dump into the lift station pit. For some reason the pumps went into backup mode and the only way to fix this problem was to cycle the pumps. System is now operating correctly.

Building Maintenance projects performed—No building maintenance this month.

Equipment repairs and/or project performed— The 2018 F-150 door locks were fixed as part of a Ford recall. The doors would not latch shut. The 5225 John Deere tractors 4 wheel drive shaft was replaced along with the wiring harness that activates the 4 wheel drive.

Trails/Course/General facility conditions—The trails at Illiniwek, Dorrance, and Amowa are in good shape. Closed a few times in January for soft and muddy conditions but in general have been open and used a lot.

Vandalism report—No vandalism.

Incidents—No incidents

Accidents reports—No accidents.

Weather conditions—Average

Activities/Events/Outings held at park— No activities

Items to be bid by Purchasing—No items.

Other misc. notes—When weather does not permit staff to be outside we have been assembling picnic tables in the maintenance building. Staff has assembled 15 tables with 5 left to assemble. The snow plow at Illiniwek is no longer is operational. The plow is approximately 25 years old and the pump went out on the plow and they do not make replacement parts for the pump anymore.

Upcoming Items— Starting in May LL&W along with the soil and water conservation district and Illiniwek will start the spring ecology classes at Illiniwek again. This is open to high school age students to learn about forest and prairie ecology. May 3rd Illiniwek will host the annual garlic mustard pull. May 10th Illiniwek will host the annual honeysuckle removal. Staff will start the annual equipment maintenance on all equipment at Illiniwek.

Report to Forest Preserve Committee

Name of Park __Loud Thunder __

For the Month of _January 2025__

Grounds Maintenance performed--

- Picked up trash on grounds, removed trash from trash receptacles
- Cleaned pit toilets as needed
- Split and stacked firewood for the 2025 camping season
- Removed hazard trees
- Removed downed trees along the Sac Fox East trail
- Finished annual pruning
- Shoveled snow as needed at park office

Building Maintenance projects performed--

- Cleaned maintenance shop
- Set up mudjacking for park office to be done when frost is out of the ground for the season
- Replaced light bulbs as needed
- Cleaned park office as needed

Equipment repairs and/or project performed--

- Performed pre and post operation checks daily on equipment to be used.
- Completed floor replacement on two small pontoon boats
- Began annual maintenance on JD 997 zero turn mowers
- Replaced spark plugs, air filters, and fuel filters on all chainsaws, backpack blowers, and pole saws

Trails/Course/General facility conditions--The park as a whole is looking great. Trails were open to horses and bikes for the majority of the month due to the ground being frozen.

Vandalism report— I have no vandalism to report for the month of January 2025.

Incidents--I have no incidents to report for the month of January 2025.

Accidents reports--I have no accidents to report for the month of January 2025.

Weather conditions—The month of January was extremely cold. Temperatures were extremely cold for a significantly longer period than we typically see this time of year.

Activities/Events/Outings held at park— The Loud Thunder Deer Archery Hunt is done for the year and a total of 35 deer were harvested this season.

The month of January was a productive one for staff here at the preserve. We were able to remove and replace two decks on our small pontoon boats for the boat rental, and work on other annual maintenance during the bitterly cold days where working outdoors was tough. Staff also finished up pruning operations along with removals of several hazard trees on the grounds. I still have a few trees that I will have staff remove prior to the 2025 camping season to mitigate risk. we will process these trees into firewood to sell to our campers.

Recent lake and fish studies conducted by IL Fisheries biologist have recommended the need for additional habitat for a few years. I am pleased to inform this committee that our application for installing fish habitat has been approved by the U.S. Corps of Engineers, and this spring, David Wyffles with the IL DNR Fisheries, will be placing 5 structures in Lake George. Caleb Cox built these structures for his Eaglescout project fall of 2024. I may have staff construct an additional 5 or 10 structures if time permits after all normal winter maintenance is complete as the biologist feel more would be additionally beneficial to the fishery.

Sustained cold temps that we experienced during the month of January kept patrons from visiting the preserve. This decline is pretty typical for this time of year, and can turn on a dime as soon as temps are forecasted high 30's and above. Ice fishermen have been taking advantage of Lake George being frozen, and fishing reports have been very good for panfish. Other users who have continued to come out include a few committed hikers and people walking their dogs.

Jeramy Duffee has again reached out to me to ask permission from this committee to hold the 4STA race here at the preserve this fall. His request is attached below in my report. I have had no problems working with him in the past and recommend granting him permission. He knows that he must provide proof of insurance of no less than \$1,000,000 and list Loud Thunder as "additionally insured", and run any changes to the race through me.

Finally, I and staff have received complaints consistently through the years in regard to the hard water smell from patrons in our new campgrounds. I have brought Oak Plumbing into the preserve to aerate the new well that provides water for both Deer Haven and the Horse Corral campgrounds. There is a very good chance that doing this may completely eliminate the sulfur smell in our water. If this is not successful then I will have to look into treating the water to eliminate this smell and that would be an ongoing operating cost to the district. I will follow-up with this committee when the job is complete and let you know if it was successful or not

4sta Hike - 2025

This trail race will take place within the Loud Thunder Forest Preserve, showcasing the trails and challenging terrain that it offers. This event is tentatively scheduled to take place on Saturday, 20Sep25. The start time has yet to be determined but would likely begin around 8am. The race organization (Gated Management) will again secure insurance for this event.

This will be a timed event (4 hours), allowing participants to run as much or as little as they would like. The current course would be a 1 mile loop that participants would repeat during the given time. Not only will it be mentally taxing running the same loop for 4 hours, but this course boasts over 300' of elevation gain and 300' of elevation loss per loop. After seven successful events, it's established itself as one of the toughest courses in the Quad City area!

Besides allowing participants an opportunity to experience what the Loud Thunder trail systems offer, we again, plan to take the majority of the proceeds and donate them back to the park. After 7 previous events, from race funds and donations from some of our sponsors, we have been able to give back over \$6,000!

We would love an opportunity to come back and host the event again this year!

Jeremy Duffee, owner of Gated Management, is an RRCA Certified Running Coach and ACE Certified Personal Trainer. He brings an extensive event background over from the entertainment and professional sports industries. He's been consistently running for over a decade and has spent the last 10 years running ultramarathons. While an ultra is defined as a race 31 miles or greater, he's covered all of the standard distances up to and including multiple 100+ mile finishes.

Forest Preserve District

Rock Island County

Members of the Rock Island County Forest Preserve District Executive Committee, please accept this report for the month of January 2025.

Notes from the prior Forest Preserve Executive Committee Meeting(s)

Work continues with Illinois Nature Preserve Commission staff on the application for the Indian Bluff Hill Prairie to be designated as an Illinois Nature Preserve site.

Issues or Items noted on the agenda for the month of December

Claims & Treasurer's Disbursements to be approved for the month are typical and continue to be generally in line with the current appropriated expenditures. Any flagged claims will be rectified by staff.

Transfers of Appropriation

There were several transfers of appropriations in the General Fund, Niabi Zoo Fund and DFCI Fund. These transfers are required as the appropriated funds in various general ledgers have been spent and funds elsewhere within each fund are currently available to cover the overages.

Resolution(s)

The Resolution pertaining to the Bike Path Grant Improvements is for the grant award fee payable to the Illinois DNR.

Ordinance(s)

There are no ordinances for consideration this month.

Other Business Agenda Item(s)

Discussion of impact to Amôwa Forest Preserve due to the construction of the I-80 Bridge-see letter from the Illinois Department of Transportation enclosed.

Discussion of cell tower request at Loud Thunder Forest Preserve-a request was made to lease a portion of land for the installation of a cell tower at Loud Thunder Forest Preserve. Before staff was to follow-up on the inquiry there should be a discussion on whether or not this activity fits the mission and purpose of the District. Staff recommendation is that it does not fit the purpose or mission of the District.

Discussion of negotiations with the AFSCME 2025A

Consider authorizing County board chairman to execute agreements with visit Quad cities, and the forest preserve district of Rock Island County, related to hotel motel tax dollars.

Reports

In general, throughout the District January operations were typical in nature with routine maintenance and repairs being conducted on equipment. January was fairly cold with day time temperatures below freezing and at times bitterly cold in the single digits, but I guess it was better than 2 feet of snow like last year. If you recall the two storms did a substantial amount of damage to the exhibits at the zoo. The extreme cold events slowed staff from typical outdoor work activities during those periods but with frost in the ground and little to no snow fall predicted in February they should catch up on those activities. Park use has been typical with the daily regular hikers and some ice fishermen. The state deer season concluded in mid-January which brought the Loud Thunder archery program to an end. The zoo held a few educational sessions. There was no activity at the golf course. Staff will continue with winter operations and activities into February and looking forward to spring.

Budget Performance Report

The FY 25 Budget Performance Report as of the close of business for January 31, 2025 is enclosed for your review. Both revenues and expenditures continue to occur as originally adopted other than the decrease funds in Personal Property Replacement Taxes and increase in Interest earned. Niabi Zoo Fund revenues are below the pace of appropriations if using prior years receipts as a comparison.

Treasurer's Report-included for your consideration.

Auditor's Report-included for your consideration.

Misc. updates and items or highlights for the upcoming month(s)

- Union - One grievance was received by the District from the Union in the month of January and then withdrawn. A prior grievance was moved to step 2 and will be heard by the grievance committee in February. The union requested a demand bargaining session over some changes to phone use policies at the zoo.
- A retired employee, Dale Salisberry, filed a claim against the District with the Illinois Workers' Compensation Commission.
- Submitted sales tax reported for the month of January.
- Staff met with representatives from IMEG to explore additional access points to Lake George.
- Staff met with representatives from Estes Construction to review repairs and upgrades to the residence at Loud Thunder Forest Preserve.

- Work continues on the exhibits at the zoo that received snow damage last year. The work has been slow and held up by the structural engineers, weather and unforeseen utilities in the project area. A water conditioner was added to the cathouse to treat the well water which should help improve the water lines and overall effect the water has on the interior structures that are clean daily.
- Submitted a claim on the District's behalf to the Illinois State Treasurer for \$1500. A credit balance from Sunbelt Rentals was never captured.
- Participated in IACD 2025 conference planning meeting, the conference is to be held February 20 & 21 at Starved Rock Lodge.
- A list of IL DNR grants available was released and staff are reviewing possibilities. Unfortunately, the state is not funding the Illinois Public Museum grant again.
- Cardpointe, the District's credit card processor Payment Card Industry (PCI) annual security evaluation was scheduled and completed.
- Vermont Systems, the District's point of sale software in January had a brute force attack in which thousands (like close to 50,000) of credit card numbers were ran through the system. Most of the transactions were less than 10 cents, however the credit card processor charged us for the use and staff are in the process of rectifying that.
- Staff have been working on annual items such as the campground, liquor and amusement ride licenses for the year.
- The District had four insurance policies pertaining to the fuel stations of the District. As of January 2025, those four policies were combined into one.
- IPARKS put the District on notice that beginning in 2026 policy terms will be aligned with the calendar year. Currently the District's policy term is August 1 to July 31. The next renewal in August of 2025 the District will be billed for August to December of 2025 and then billed again for the 2026 calendar year. This will put a little pressure on the cash balance in the Liability Fund and even more so now that the District has an existing workers compensation claim. Reserves in the General Fund will be able to cover any necessary cash flow issues within the fund.
- Submitted receipts to IPARKS for the golf course clubhouse lighting strike incident that occurred last July. The clubhouse incurred \$11,194.70 in damages, all were electrical related. The District's deductible is \$5000.00.
- Registered to keep the District's System for Award Management (SAM) and other federal requirement in tact for potential grant opportunities in December. Currently the District's GATA account is active and up to date with FY 24 audit information currently under review.

- Attempting to familiarize myself with the new grant software, Amplifund, the State of Illinois is using for the Bike Path Grant administration. Some initial training was done awhile back when I established an account for the District
- Met with Mindfire to discuss quantifying visitors to Illiniwek and touched base on potential marketing needs for the 2025 season. The Larry Toppert Endowment received a check in the amount of \$384.00 and the remaining t-shirts will be sold in the camp offices this season.
- Continued updating the District's FY 26 appropriations and five-year budget projections with capital improvements.
- Still working on the update to the District's Master Plan.
- General new year office cleaning and maintenance and what seems like the never-ending job of sorting through old files of the District. Staff will be doing some minor painting in the upcoming weeks to give the office a cleaner look.
- Zoo Foundation meeting for January was canceled due to the threat of freezing rain and ice. The next meeting of the Zoo Foundation is scheduled for February 19th.
- Loud Thunder Forest Preserve Endowment quarterly statement is enclosed for your review. A spendable allowance is yet to be determined for calendar year 2024.
- Completed the 2025 Illinois Office of the Attorney General's FOIA and OMA training.
- Participated in the County Blood Drive on January 22nd.
- Participated in a review of the District's ratings with Moody's.
- Used a couple days of vacation throughout the month indulge in some winter activities and intend to do so again in February if the weather cooperates.
- Will be attending the IAPD Joint Legislative Committee Breakfast in Princeton on February 13th at 8:30 AM.
- President's Day Holiday February 17.
- Next meeting is Tuesday, March 11, 2025

Inspection Recommendations and General Comments

Dam ID No.: IL00136
Name of Dam: Lake George
Owner: Rock Island County Forest Preserve District

Recommendations to be completed by December 2025:

1. **Maintain a mowed downstream embankment for inspection.** Vegetation should be maintained to a length where the grass will not fold over on itself, this will allow for proper inspection. Visual inspection of the embankment is very effective and is one of the easiest and best warning signs to determine any potential stability concerns or other possible issues (e.g. seepage or piping issues, rutting, burrows). Vegetation to be burned or mowed on downstream slope. Remove woody vegetation from embankment and downstream energy dissipater.
2. **Repair downstream erosion from roadway.** The rock drain near station 12+25 LT was observed to be further eroded, compared to prior inspections on the downstream face of the dam. There is now two establish erosion rills to be repaired with compacted soil and erosion control measures.
3. **Complete routine maintenance/break-in of sluice gate.** Follow manufacturer's Operation & Maintenance recommendations and routinely work valve. Remove bird nest on stem guide of valve.
4. **Clear Vegetation** Clear vegetation along spillway chute fence to allow for proper visual inspection and prevent burrowing animals.
5. **Repair fence along spillway chute.**

The Department of Natural Resources is requesting information that is necessary to accomplish the statutory purpose as outlined under the River, Lakes and Streams Act, 615 ILCS 5. Submittal of this information is REQUIRED. Failure to provide the required information could result in the initiation of non-compliance procedures as outlined in Section 3702.160 of the "Rules for Construction and Maintenance of Dams".

CONDITION CODES

- NE - No evidence of a problem
- GC - Good condition
- MM - Item needing minor maintenance and/or repairs within the year, the safety or integrity of the item is not yet imperiled
- IM - Item needing immediate maintenance to restore or ensure its safety or integrity
- EC - Emergency condition which if not immediately repaired or other appropriate measures taken could lead to failure of the dam
- OB - Condition requires regular observation to ensure that the condition does not become worse
- NA - Not applicable to this dam
- NI - Not inspected - list the reason for non-inspection under deficiencies

EARTH EMBANKMENT

ITEM	CONDITION CODE	DEFICIENCIES	RECOMMENDED REMEDIAL MEASURES AND IMPLEMENTATION SCHEDULE
Surface Cracks	OB	Surface Cracks Observed	There is minor cracking of the roadway pavement over the drainage culvert at the east and west end of the dam. There is minor cracking of roadway pavement at ~15' centers from the spillway to the drainage culvert at the west end.
Vertical and Horizontal Alignment of Crest	NE		
Unusual Movement or Cracking At or Beyond Toe	NE		
Sloughing or Erosion of Embankment and Abutment Slopes	MM	Erosion/Rilling	Erosion from roadway shoulder was observed on the downstream face of the embankment, west of the spillway. Erosion stone placed in topside of rill, continued erosion below. Repair with compacted earth and reestablish vegetation.
