**ROCK ISLAND COUNTY FOREST PRESERVE COMMISSION  
MARCH 18, 2025 – 6:26PM  
PRESIDENT KAI SWANSON - PRESIDING**

1. Karen Kinney, County Clerk, called the roll: (Record)

D. Adams, L. Burns, C. Enburg, T. Foster, C. Layer, P. McNeil, D. Mielke, L. Moreno, M. Moreno-Baker, R. Morthland, B. Perkins, R. Simmer, E. Sowards, K. Swanson, J. R. Westpfahl, J. Woods

**TOTAL PRESENT 16**

R. Brunk, E. Dewith, B. Vyncke

**TOTAL ABSENT 3**

2. President Swanson stated, "Thank you, Madam Clerk. At this time, it's my great pleasure to call forward for a presentation, Dr. Greg Rasmussen. Although Vanderbush will make the introduction, but I can't resist saying it is a wonderful thing to have a person this committed and passionate step away from his primary field of research in Southern Africa and spend some time with us here on the West Coast of Illinois. So, at this time, I'm pleased to turn it over to Mr. Joel Vanderbush, from Niabi Zoo."

Joel Vanderbush stated, "Thank you, Mr. Swanson. You got me?"

President Swanson stated "I got you."

Mr. Vanderbush stated, "Sorry, I dropped my dog. So, many of you may recall, that in November of 2023 into December of 2023, I went to Zimbabwe to work with Dr. Rasmussen.

We have been conservation partners since 2018. And that...this has become probably the most steadfast conservation partnership, definitely in my career...but for sure at Niabi Zoo. And, for us two to work together for that long, just like any relationship, you learn the needs of your partner and you want to provide as much as you can. And, as you learn more about that partner, you discover that there are simple things that we can do to make that relationship better. And, that's how our relationship started from designing their websites, to helping them to train an educator that came over to visit us. And then, the pandemic happened. And, we realized after the pandemic, when we were able to do some work again, that perhaps we actually needed to go help train educators at their sites.

And, we were able to do that during my time there, hiring four new educators as well as training them how to run a bush camp; which he will tell you more about. But, I also want to say that as we continue to participate and continue to understand what more they need, we're able to actually help in a much larger

capacity. One was the (inaudible) of his first children's book by Dr. Rasmussen. And, these are stories that he has experienced himself that we're able to develop into a book. So, I was the editor of this book and contributed a few of the factual pages in the back, based on the work that we do at Niabi Zoo for our animal fact sheets. (Shows piece of art) This little painted dog right here, this is made of snare wire art, from the snare wires that poachers use to kill animals in the wild for the wildlife bushing train; which is one of the most devastating for all animals no matter where. And, Painted Dogs are a bycatch of that for trying to catch the prey that they're setting these snares for. I have rust on my fingertips because this is the actual wire that came out of the African bush. That is then converted into art like this, by artisans that are in Dr. Greg's community. And, we even have some felted painted dogs that staff...that he has hired and trained to develop these pieces of art are now sold at our gift shops and gift shops around the country.

That money then in turn goes back to support those conservation efforts. And, of course, in addition to that...we continue to develop this relationship. Like, we were...we've been teaching at Augustana. I've been teaching there three days a week, teaching a senior inquiry course on conservation methods. And Dr. Rasmussen, this week, is spending Monday, Wednesday and Friday with us in that class and demonstrating all of the conservation methods that I'm teaching about.

They demonstrate it at their sites. And that, I think, is the most common sign of when you develop these kinds of relationships. You want to know that those partnerships are valid, that you invent those organizations, and that they actually live by what they say they're going to do. And, that's the relationship that I have with Dr. Rasmussen and his entire team there in Zimbabwe. And, we are hoping to return in December this year as well as taking one of our zookeepers with us. So, that's going to be another continuation of that.

But, I'm not gonna tell you anything more on that. I'm gonna bring up what is, without a doubt, the...the most prolific wildlife biologist for African Painted Dogs literally, on the face of the Planet Earth. I will tell you, there's one little thing...I worked at a different zoo in the center of Indiana; which you may know that too. And, twenty years ago when I worked there, I worked with Painted Dogs. We had a pair. And, I will tell you this, all of the information that we told to the public other than the fact that they were carnivores and they lived in packs...all of the other information we provided to the public was wrong. And, I can tell you that, as a professional, because it was at those times that Greg was publishing and learning about this very unique endangered species in Africa. So, when I say he literally wrote the book on the species, I am not kidding you, as I have lived that through my own career. So, without further ado, please welcome Dr. Greg Rasmussen."

(Group Applause)

Dr. Rasmussen stated, "Well, good evening. It's an honor to be here tonight, and it's an honor to be in your area. I've been here quite a few times now and I always look forward to coming. Joel said partnership but partnership is always two ways. It's wonderful. When I first met Joel, it wasn't can you help me...he was saying, we want to get dogs but we have no idea on what kind because...and what do they need? Could we do it? What part of the zoo? I said, 'Don't worry about it, I can help.' And, within a week, he had me up at Niabi, here. That's the kind of guy he is. And, that is a partnership. A partnership is a two-way thing...you know, it's not all just give me, give me. You know? So, I believe if I can help you, I can help give you the stamina with helping at the Zoo, the exhibits and anywhere I can contribute. It means a lot to have a partnership.

But, my partnerships actually started with Painted Dogs thirty-eight years ago. Oh, it worked, gosh. Now, normally, you're....(pause) So, I started in 1987, we knew absolutely nothing about dogs. I was actually working with reptiles and somebody said, 'Greg, can you work with Painted Dogs?' 'We've got \$20,000 to spend.' I said, 'No.' I said, I am here to work with reptiles; which I did. He said, 'Well, you've....you're bound to give it a try and you've been recommend as a field officer...you can study anything.' I said, 'Yeah, I'll help you for six months.'

Well, and so it's how it goes. I started in 1987, against the crack backdrop of 150 branded dogs in the country....a species that was a million (inaudible). And, here's the paradigm. This is where I feel that...you know, cross pollination cultures, we all have exactly the same problems, they just look different. For example, Painted Dogs are assaulted by the ranchers through the wolves. The wolves are assaulted by ranchers...and dogs are assaulted by ranchers. We've got lots to share and lots to learn, took me 13 years working with the ranchers and sometimes I you get some, you know...it's an individual parlay going on there. We stopped the shooting. And in the end, we came to an amicable understanding that the middle wasn't my side or your side. The end game was somewhere in the middle. And, that is what we experience with conservation. So now...and the more the ranchers actually said to me, this is where the research come in...this is why I love research. 'But, they're killing all our cattle.' I said, well...let's get to the bottom of that. Let's find out exactly what the numbers are. And, I said what they really are....as a researcher, I need to know and I need that to understand your problem. It turned out the dogs were responsible for 1.7% of their losses. But, plastic bags, however, killed 17%...do the math. So, when I said that to the ranchers...they said...well, I actually said, maybe you should shoot plastic bags. Some took it with some sort of humor and some didn't take it too kindly. But, the reality of it was...and they said, 'But, we hate them!' And, I said, but now we have the problem. And, in the end they all said well, our losses are actually not that great and we are willing to put our guns down, regardless...for the public. And, this is one the big roles that I think good conversationalists and organizations, whether they be us or zoos. Zoos, in particular...I mean, you have zoos in the US that have more people going to than the football games. My audience is, you

know, very small. And so, for you...zoos would be the mouthpiece of conservation, and that's where a big partnership...one of the big partnerships can come along. This is just a little...when Joel said he was out, he won't just be in education and helped me with our camera trap program. It's one of our main to major days because, actually, it was to buy cameras. Law and innovation research have become my mission. If you take a picture of it, you don't have to be there. So, what about the Painted Dogs that I saw with all those years ago? Well, we didn't have the answers and Joel said, what we didn't know was that they would be the most researchable species on the planet. And, we could actually...I wanna say we could learn a lot from nature. And, Painted Dogs was the only species to be where there would be no fighting for leadership, there is no fighting within the pack, and there is no fighting for territory. If we studied them or pursued of being like them, we would all be a lot better off....sort of our consideration and greeting each other five times a day. (Oops, what have I done? I just pushed the wrong button...I don't know.)

So, I just want to share with you, one of my first encounters with the fancy dogs...it says a lot about the species...would probably put me on fire. I study a pack of dogs and I like to follow them for 28 days in a month. And, the one I was following...the one dog was mauled by a lion. I radioed a vet, and I said to the vet...I said, can we do anything? He said, well, what can I do...it's 6:30pm at night? I said, I don't know...I said, I probably, myself, need emotional support. He said, well, come back at 5 o'clock tomorrow morning, and we'll see what we can do. I came back at 5 o'clock the next morning, and the dog was not there. He clearly had been dragged away by a predator. So, thought nothing of it and I continued to follow the pack. And, probably, one of the mind-blowing experiences of my life...one dog kept disappearing to some place, but we had put a tracker on it, a foot tracker. We tracked it together and we got to a point about 10 miles away in another unknown city where he was injured, near dead was this dog. His brother was going back every single day to feed this dog, to clean its wounds. It was the first case ever, of a wild species taking care of its sick and its weak. He did that for three months. And, everyone was saying, oh, this is a savage roost. (Shows slide) Well, for me...that's the same dog six months later and that was the beginning...where my conservation started.

I realized that there is more that we could learn about nature...we should learn about nature. The same options apply to our people who, of course, say this is a bad person and they don't look very far beyond it. So, with that...my journey began with not only studying Painted Dogs relentlessly, but also working in schools, doing a lot of it...I was slightly younger in those days. (Shows slide) Gerald and I both had dark hair when we met. (Ha-Ha) And, I used to go to schools and share with schools in the same way I like to share with the students today in Pakistan what we're really doing and what the real world is like. Of course, that's not necessary in the real world, but my message here with this slide is you don't ever realize how powerful education is when delivered in the right way could be.

Twenty years after that was taken, a young graduate student comes to me and she says, I want to understudy you. And, I said, I didn't know...I said, we'll, put up a few walls as if you were beating down of every wall, I thought. She's like...I really want to, sir. I think well no, I can find a combination. And when I finally said okay...that since that you're old. And, she said, you came into my classroom twenty or eighteen years ago. She said, dressed as a fancy dog. She said, from that moment on...I'm satisfied and I want to become a conservation biologist. That young lady is now a top conservation biologist, leading women in conservation in South Africa. That is the sort of thing that happens at zoos. This is why Zoos, to me, are so important. The mission and the work they do the cross-pollination they do. We can't do it from the field when we're standing at that incident half the time....maybe doing that or to do, we have no power.

So, I didn't realize that I was being a firefighter for zoos and also be the firefighter for conservation of wildlife. And, ultimately, this is the next generation that we have to look after. I don't think there's a person in this room that wants to say, daddy, grand-daddy, why are there no Mountain Lions and why are there no Bobcats? And, that's just my message there.

What we are dealing with today and the challenges we have are very common. There are parallels. You know...you know, they are one of my favorite provisions. You have exactly the same problem where I am. You want to study the area of the road in mine, 50 miles long. We lose four to 8,000 birds per animals annually on a 50-mile section. There are parallels...there are lessons that we can learn from this side of the pond. There are lessons that, hopefully, the people in the US can learn from us. We've tried to do an investigation and we can't unfortunately, put over passes and under passes because we have elephants and giraffes. You can't put an under pass for a giraffe. We tried to think what merchants were trying to say. We didn't know the speed limit of, but like in other parts, we put up road signs, you know, all the way down the road. That seemed like a good idea at the time, until I began my private walks there...and we have elephants that roam free unlike in the US. They were a disaster (Shows slide)

Well, I tried covering up my road signs with barbed wire and razor wire and filled the tube with concrete, but the elephants were still determined to tear it up. (Shows slide) My God, it's ridiculous, isn't it? This is what we are up against. (Shows slide of mangled road sign) (Group chuckles) After a few, I think the elephants have to become my friends. We did have a case where the traps were emptied and I thought, yes, they've gone off with it and I do believe it now. We do all sorts of things and in-fact at the time we took this photograph of the billboard, you know, we are investing money. But, anyway, the money raised needs to go to conservation with these billboards going up on the roads in Zimbabwe. We were where we would get the police on-site...we get parks on-site, and we get the major authorities. The other day, a disturbing...the disturbances we're having, the challenge we're having are all man made. As the numbers are all naturally

increase because with tourism comes water. So, no food, but a lot of water. You increase your numbers because of water, but then die of starvation. Then, something we have...we have tourism and it's a double-edge sword. People are going into the dens and then the pups don't get to feed properly and then losses come from other animal attacks. I look at my cameras almost 20 times a day and don't get much work done. What it does mean is, the pups don't get fed and end up with a short life. This is what a good scientist does. This is why you need a scientist who knows his stuff to make to help that decision. I'm told I couldn't have a say for very long, but the ability for the future is really important. And, I want to say that back in this century...back 30 years later, I am delighted to have Niabi come on board. And, Joel Vanderbush brought in his conservation team. (Shows slide) Here is Joel and the field of us inspiring his and my new generation of educators. Those are skill sets that we do not have. We know what we need...I knew I wanted to live in Bush Camp, but it did like the officer's cartoon where the pile of horses were drove in a pond. They say policy is something you have to put together. (Shows slide) So, this is just some of the take-aways from Joel being with us. These are all the activities that I'm not usually in...they didn't just come and leave. He came, set up something that we are continuing with...but when he comes back...we are gonna keep gonna and you're gonna get better every time.

So, I'm really excited to have my RV as part of the activities the kids are doing...blowpipe belts and radio tracking. And, this is a Bush Camp that we're building. Joe has been helping and the zoo is helping to raise funds to build a Bush Camp, and a Sperm Camp where kids can come and live in for three days. That is the most powerful experience where kids do not just come for a voice pop. They come and live in because then we get them from 5 o'clock in the morning to 8 o'clock at night for three days. Makes a difference. The Bush Camp is not finished yet, and we got to get....we're trying to build a toilet pit; which is in basil rock. We have to drill down in basil rock deep depths some 30-foot hole. It didn't help that the equipment failed and the drill broke down...so, the kids saw it best to see how many kids can we fit in a bucket. (Shows slide of several kids in the scoop of a tractor bucket.)

(Group chuckles)

Just a little commitment to the future. We are very...in most rural areas of our world, women have been denied an education. And, it was nice to hear a woman getting praise tonight for her achievement, not alcoholism. (Group chuckles) (Shows slide) And, um, here is a young lady who was 13 years old who was gonna be taken away from school. Her mother said, I don't have money and I said well, that is what I what to hear because we can fund that. The real reason was because she was girl and she was gonna be denied an education. This young woman passed her Middle School, passed her High School...went to university and became the first woman ever, in an area the size of Delaware and

beyond, to graduate with a Bachelor of Science degree. We can make a difference, but we must do it together. Thank you very much."

(Group applause)

President Swanson stated, "Dr. Rasmussen, are you available to take some questions and comments?"

Mr. Rasmussen stated, "I would welcome some questions, if you have time?"

President Swanson stated, "I am just looking this way and that."

Mr. Rasmussen stated, "You need a (Inaudible)."

(Group laughter)

President Swanson added, "When you are thinking about time...we are on your time."

Mr. Rasmussen replied, "Nah, I am good. I've come all the way from Zimbabwe and I don't go back for a month."

Commissioner L. Moreno was recognized.

Mr. Moreno stated, "Not a question...just a comment. That was the most enjoyable presentation that I think I ever heard. Normally, I am like...God, please come on...but I could sit here and listen to you all day long. Thank you very much, I really appreciate it."

Mr. Rasmussen stated, "It is my absolute pleasure and an honor."

Mr. Vanderbush stated, "Well, they'll have two more opportunities to listen to you. Do you want to tell them that?"

Mr. Rasmussen stated, "Okay, well...we are doing nursery students at the university there...the one is the brew pub."

Mr. Vanderbush clarified, "Fight for Painted Dogs."

Mr. Rasmussen reiterated, "Fight for Painted Dogs tomorrow night."

Mr. Vanderbush added, "...at Front Street Brewery."

President Swanson stated, "Front Street Brewery. Tomorrow night, what time?"

Mr. Vanderbush stated, "Six-thirty."

President Swanson clarified "At 6:30pm at Front Street Brewery."

Mr. Vanderbush added, "It's free to attend."

Mr. Rasmussen stated, "And then, Painting for Painted Dogs on Friday at the zoo. Where all of your lasses are going to show that we all can't paint for squat."

(Group chuckles)

Commissioner Simmer was recognized.

Mr. Simmer asked, "Yeah, uh, when was the last time you were here...was it prior to COVID?"

Mr. Rasmussen answered, "No, no, I've been coming every year with the exception of COVID."

Mr. Simmer stated, "Yeah, I mean we've been doing that series for a while Joel?"

Mr. Vanderbush answered, "Yes."

Mr. Simmer stated, "I mean...that's where I first met him."

Joel stated, "He was one of the very first in our conservation speaker series; which helped to kick that off."

President Swanson stated, "Right."

Mr. Simmer stated, "Which I still have my dog on my desk which is still a constant, conversation piece. I push it to..."

Mr. Rasmussen interjected, "Well, you gotta get a whole pack."

(Group laughter)

Mr. Craver stated, "We have about nine boxes of them at Niabi Zoo. We are one of the hubs for distribution for them in the country."

Mr. Vanderbush added, "So, if you want some, we got 'em."

Commissioner J. Woods was recognized.

Ms. Woods asked, "What age do you start with the children?"

Mr. Rasmussen answered, "As young as possible. Normally, about seven or eight. The youngest child I'm ever taking out to the field, who came with me, a girl was 11 years old. She would come to the Bush Camp in the beginning to start. The idea is to take them all the way through the Graduate program, Master's program, and then some PhDs. And in fact, while I am in the US, I do have US students that I mentor to come over to Zimbabwe for two months at the time. And that's also great for us, for my students. They cross-pollinate with the students in the USA...it's a win-win. I think we need cross-train them to see other cultures because it's not just about conservation, if you can get to see another culture, it's amazing! These partnerships are more powerful than us living on the islands."

Commissioner Enburg was recognized.

Ms. Enburg asked, "I was curious about the book...where can that be purchased at?"

Joel stated, "We will have some at the gift shop at Niabi Zoo. I also happen to be the National distributor of that book, and so, I may have about seven cases of those...but they will be available on both Wednesday and Friday nights at our events as well."

Ms. Enburg stated, "Thank you."

Mr. Rasmussen stated, "You have to remember that Christmas is coming...it's just around the corner or a birthday."

(Group laughter)

President Swanson stated, "It's an Easter basket stuffer!"

Mr. Rasmussen stated, "Now, you are talking!"

President Swanson stated, "Alright...thank you. Are there any other questions...looking around? Well, friends...please join me, once again, in thanking Mr. Rasmussen."

(Group applause)

And, as was mentioned by Joel, there are all kinds of treats and treasures at the Niabi gift store. So, whenever I get out there with grandkids, we always make a stop and it's always rewarding to see the kinds of things we get because, remember, your purchases support the zoo and all this amazing species conservation work. So, please get out there when it opens. In the meanwhile, get out to the parks as things are go on."

Commissioner Simmer asked, "What is the age for seniors?"

President Swanson stated, "Uh, it's \$15.00 for seniors."

Mr. Simmer reiterated, "What is the age?"

President Swanson asked, "Mr. Craver, sorry to interrupt. What do we define as seniors for the golf cart policy?"

Mr. Craver stated, "Um, I cannot answer that at this time."

President Swanson stated, "Rodney wants to know if he can golf at these rates."

Mr. Simmer stated, "I qualify...and no one better to sell it to, we have a \$15.00 thing for weekdays."

Mr. Craver stated, "I am sorry, I don't know...it's 60 or 62."

11. **Comments from Commissioners: (None)**

Commissioner Morthland was recognized.

Mr. Morthland stated, "Not that this was directly Commission business, but I was privileged to visit my mother for her 94<sup>th</sup> birthday this morning. It's just to remind you that her family is all over all of these walls back here...her ancestors. And, so, they are a real part of the Rock Island County legacy."

President Swanson stated, "Thank you very much for lifting that up for us, Mr. Morthland. I appreciate that greatly."

Commissioner Mielke was recognized.

Mr. Mielke stated, "The Painted Lion and Painted Dog featured Friday is featured in the Coal Valley Newsletter, and so, hopefully, that will help a little bit more too."

President Swanson states, "Alright, get your drink on...and my wife does a lot of those. And we value the painting and how expensive the wine was when she went."

12. Commissioner Perkins I moved to approve all Routine Reports from the Director and Departments Heads of the Forest Preserve Commission, as presented. Commissioner Adams seconded.

President Swanson stated, "Mr. Lee Jackson is here tonight. I am grateful you are here. While you are here, is there anything you would like to lift up for the commissioners?"

Mr. Jackson answered, "No, I don't think so. Are there any questions from the Report?"

March was a much more typical month this season, than in 2024. The golf course opened for the season March 18, and it has been a series of ups and downs since then. The roller coaster ride of business matches up with the roller coaster ride that is the weather. Overall the numbers pale in comparison to 2024, however, last year will prove to be a very rare season where the golf course opened in February. When the weather was good, the golf course was fairly busy. Season pass sales continue on the normal trend.

Looking ahead to the month of April...it looks like the roller coaster of weather will continue, trending cooler thru the second week of the month. That will likely keep business somewhat light. We should start seeing the leagues begin once we get into the second half of the month, and daily play usually begins to pick up as well. League play is trending slightly less with some of the leagues losing some players, a trend that began post covid. Overall, the younger players that continue to spark the golf resurgence nationwide, do not have much interest in joining leagues at this point. However, they do continue to come out play late afternoons if they can get a tee time. With the Masters next weekend, I expect come next week people will be ready to get the season off and running for good.

April I expect the roller coaster to continue, and it remains to be seen how that will effect play overall. I think once we get our first sustained warmup, play will increase substantially.

Most of the outings have already booked their dates for this season. The first outings are not scheduled until June, so we have a little bit of time before they start. Once we get started with the outings we have a pretty full schedule, in the second half of the season.

## Report to Forest Preserve Committee

Name of Park Illiniwek

For the Month of March 2025

**Grounds Maintenance performed**— Staff finished picking up all the pruned branches in the campground and on the south side of route 84. Staff also used the chipper to chip all the pruned branches in the tree farm along route 84 at the north end of the preserve at Illiniwek. Staff burned the brush pile at Illiniwek and a very large one at Dorrance. In an attempt to push back the edges around the parking lots and diamonds at Dorrance staff has been pruning and cutting a considerable amount of branches and trees. Branches were pruned along the road leading to the pee wee diamond and off the pee wee diamond outfield fence and along the road to the back parking lot. Staff cut every tree and honeysuckle bush off the hill behind right field fence on diamond 1. This is to eliminate trees from becoming a problem in the future by falling on the outfield fence. One tree did fall on the fence over the winter. Staff will need to repair a top rail section when time allows. It also makes this area look much nicer and not so over grown. Staff also cut 3 trees down that were leaning towards the outfield fence on diamond 2 along with 5 dead ash tree along the 3<sup>rd</sup> baseline fence. Staff also conducted two prescribed burns at Dorrance. One burn was a 3 acre woodland area and the other was the 1 acre prairie plot.

Staff stump ground all stumps within 8' of the chain link boundary fence on the north side of the boat ramp parking lot. This area has been overgrown and occasionally a tree has fallen on the neighbors fence. Staff has been cleaning this area up and with the stumps ground out they will be able to start mowing a path along the fence to keep the area looking nice and allow easy access if we need to clean another tree up in the future.

**Building Maintenance projects performed**—Staff started to clean the two shower buildings by sweeping them out and doing a maintenance check list on items that need done prior to opening on the 4<sup>th</sup>. Staff purged the camp office building by thoroughly cleaning the back room. Old boxes with out-of-date items were thrown away along with a thorough cleaning of spider webs and sweeping the floor.

**Equipment repairs and/or project performed**— No equipment maintenance this month.

**Trails/General facility conditions**—The trails at Illiniwek, Dorrance, and Amowa are in good shape. They have been closed they last week of the month due to wet conditions. FORC sponsored two trail maintenance days in March. One at Dorrance and the other at Illiniwek. They cleared trails , cut fallen dead trees off the trails, and leaf blew sections to help dry the trails faster. Staff also helped with clearing fallen dead trees off the trail system at Dorrance. Staff cut 3 large fallen dead oaks off the oakly dokely loop. The engineers have started working on the bike path improvement project that will happen this summer between Port Byron and Cordova by marking areas that will need patched. These areas will receive a patch prior to the new overlay.

**Vandalism report**—Someone in a 4-wheel drive vehicle decided to drive through the mowed grass areas at Illiniwek and create ruts and tire marks below the sledding hill. There was another break-in at Dorrance. This time they stole catchers gear, bats, helmets and a tool set. The cameras did not catch who it was. Another report was filled out with the sheriff's dept.

**Incidents**—No incidents

**Accidents reports**—No accidents.

**Weather conditions**—Average

**Incidents**--I have no incidents to report for the month of March 2025.

**Accidents reports**--I have no accidents to report for the month of March 2025.

**Weather conditions**—The month of February was cold for the majority of the month, but we did have some unusually warm days that brought folks out to enjoy the preserve.

**Activities/Events/Outings held at park**— I have no events or activities to report on for the month of February.

Patronage here at Loud Thunder has continued to pick up on the warmer days. This is typical for this time of year as weather tends to dictate daily usage. I opened the gates to the public boat ramp for Lake George and the Riverview campground early in the month so people could have access to the lake and the Andalusia Slough.

Staff has completed all annual maintenance on equipment this month. We also addressed several trees that were blown down in the several high wind events that occurred here during the month of March. We have cut up and processed all the wood that we could for firewood and will be selling that to campers this season. Our trails also received a lot of attention during the month as several trees needed to be removed from them.

We started to take reservations for camping on March first this year. Patrons are excited and have been steadily reserving sights. The camping season begins April fourth this year so the end of the month has been spent working on getting the sites prepared for patronage and turning water on. Staff is looking forward to another great year of camping and fun here at the preserve. Hopefully we start the season off with some really good weather.

# Forest Preserve District

Rock Island County

*Our mission: is to maintain and acquire lands with the intent to restore and conserve such lands for the purpose of preservation, education, and recreation for its residents with fiscal responsibility.*

Members of the Rock Island County Forest Preserve District Executive Committee, please accept this report to the Committee for the month of April 2025.

## **Notes from the prior Forest Preserve Executive Committee Meeting**

Nothing to report at this time.

## **Items noted on the agenda for the month of April**

### **District Monthly Claims & Disbursements**

The monthly claims & Treasurer's Disbursements are again typical for this time of the year. The agreement with Old National Bank was closed out prior to board approval so that is why there are two claims reports within this month's list of claims to be approved. April Palmer informed the Forest Preserve Executive Committee of the need to pay and closeout the agreement last month. Staff throughout the District have been preparing facilities to open for the 2025 season so payroll and other operational supplies are and will be increasing compared to the prior months. Any flagged claims pertaining to sales tax paid or missing receipts, staff will rectify those ASAP.

### **Transfers**

Several of Transfers of Appropriations were required to pay for the transfer of golf carts from the Indian Bluff Department to other departments of the District. The Golf Course Improvement Fund would not have enough funds if the departments did not offset the trade-in value of the carts they are taking.

### **Resolutions**

There are two resolutions for consideration this month.

The resolution pertaining to Golf Cart Fleet is for golf carts being retained by the District within the departments of the General Fund. As noted earlier, the Golf Course Improvement Fund does not have enough cash within the fund to cover the entire cost of the new fleet with the loss of the trade-in value of these carts.

The resolution pertaining to FY 25 Niabi Zoo Improvements ARPA Grant Appropriations is the final payout of Rock Island County ARPA grant funds to the District. The Big Cat, Eagle, Rhino Roof and Snow Damage project has a \$912,392.55 balance which includes retainage.

### **Ordinances**

Loud Thunder Forest Preserve    Illiniwek Forest Preserve    Niabi Zoo

Indian Bluff Golf Course & Forest Preserve    Dorrance Park    Martin Conservation Area

# Forest Preserve District

There are no ordinances to consider this month.

## **Other Business**

Niabi Zoo 2025 Food Services Concessionaire Vander Vending.

## **District Reports**

Consider the **Auditor's report**.

Consider the **Treasurer's report**.

The **District Budget Performance Report** is available for your review and consideration. Generally speaking things have gone per usual with the exception of Personal Property Replacement Tax and earned revenues within the Niabi Zoo Fund. Investment revenues and golf fees have helped offset the drop in Personal Property Replacement Tax. As for the zoo, attendance at the zoo has been declining since COVID and the reduced fees last year in addition to exhibit closures because of the snow damage in January of 2024 significantly impacted the earned revenues for the last quarter of the prior fiscal year and first quarter of the current. Last year the zoo had 41,000 visitors in April-June and in order to meet FY 25 appropriated revenue levels, staff estimate approximately 61,000 visitors are needed to meet current revenue appropriations.

As of late, staff have reported some unforeseen issues like the need for a new cooler roof, new electrical panel at the hay barn, and a new water heater at biodiversity building for the zoo. At Illiniwek, staff encountered a shower building furnace repair, issues with two water heaters and other miscellaneous plumbing issues surfaced when staff began to get the campground facilities operational. Offsetting revenues or reductions within these departments budget is becoming more difficult moving into the last quarter of the fiscal year. Loud Thunder spent unappropriated funds on the new well at Deer Haven to attempt to remove the sulfur smell being emitted from the water but this expense should be able to be offset with the savings from the vacant Asst. Ranger position. Indian Bluff opened with little to no major financial surprises.

Generally speaking, April is the slowest month for earned revenues throughout the District and currently moderately cool days with strong winds are being forecasted for the next couple of weeks. Hopefully, this weather pattern will move out and warmer temperatures and timely rains will prevail providing opportunistic periods in which folks will frequent the District's facilities.

## **Staff Reports & Misc. Updates, Information.**

### **Union**

# Forest Preserve District

Rock Island County

No grievances were filed by the union for the month of March.

### **Zoo Foundation**

The next meeting of the Niabi Zoo Foundation is April 8<sup>th</sup>.

### **Liability**

There is nothing to report with the Kilgore or Salisberry claims against the District.

### **Items of note for the Current Month**

- Submitted the quarterly reports for the Bike Path Fund grant through the Amplifund grant portal. There was little to nothing to report with no current expenditures and IMEG is still in the development stage for construction and bidding documents. It is the intent to have the project bid in late April so bids can be presented in May for consideration. Construction will begin later in the year.
- Basic site plans were submitted to the grant administrator of the Electric Vehicle grant.
- Attended the IPRA monthly webinar March - How Climate Change and Weather Extremes are Impacting Parks & Rec on March 12<sup>th</sup> for .01 CEU's.
- Continue to review best practice policies and procedures as recommended by the Illinois Distinguished Agency Accreditation program sponsored by the Illinois Association of Park Districts.
- Dan Salmonson, Indian Bluff Golf Course, Asst. Supt. retired from the District after 35 years of service. We all wish Dan well as he moves onto a new chapter in his life. Stephen Hughes, Indian Bluff Golf Course, Greenskeeper moved into the vacant position and Weldon Mulliken filled the vacant Greenskeeper position. John Kay, Niabi Zoo Tradesworker filled the vacancy of Asst. Ranger at Illiniwek. The zoo is in the process of evaluating candidates for the vacancy created. Loud Thunder is still seeking a qualified candidate to fill a Asst. Ranger position.
- Temporary or seasonal position hiring has been underway. The County HR Dept. implemented a docusign process to get folks through the onboarding process which proven to be very effective.
- Staff have been working with the County IS Dept. on implementation of a time and attendance software. The transition should occur sometime in late April. This was a significant capital item in the District's FY 25 budget.
- Received approximately \$1500 in unclaimed property from the State Treasurer. A vendor didn't credit the District for rented items and the funds were reported to the State I assume.
- Continue adjusting the FY 26 budget appropriations according to the changing needs of the District. The FY 26 budget will be presented next month and laid on display for 30 days before approval in June. The FY 26 capital budget will mainly revolve around the bike path grant and electric vehicle grant. There will be some vehicle and equipment items such as mowers.

- Staff have been working with Estes on a budget to give the Loud Thunder residence a makeover. The siding, soffits and windows have not been addressed probably since the residence was constructed.
- Awaiting IMRF's Preliminary Rate for 2027. Historically, IMRF released the preliminary rate on April 1, however with the new website and portal the time frame has moved to a floating period in the month of April. At the time of this report IMRF has not done so and this is the last item needed to get the FY 26 budget finalized.
- Loud Thunder will attempt to keep three bee hives for novelty honey production again in 2025. Bee packages will be delivered April 5<sup>th</sup>.
- Completed the District's PCI quarter scan and rectified noncompliance items.
- Illinois Association of Conservation District's meeting is scheduled April 23<sup>rd</sup>. The meeting is at Starved Rock State Park's Visitor Center. A 2026 conference planning meeting is scheduled immediately afterwards.
- Staff will be attending the River Action Fish & Fire Fundraiser May 1st.
- IPARKS will sending a representative to conduct the biannual inspection of the District's properties on April 16<sup>th</sup>.
- Myself and several staff utilized PTO before the expected busy seasons ahead.
- With warmer weather hopefully coming in the next several months, please feel free to contact me or any site superintendent for a site visit at anyone of the District's facilities.
- Hopefully warmer & drier weather for baseball, fishin', and planting!

Respectfully submitted this 3<sup>rd</sup> day of April, 2025
